

Story:

You've decided to work part-time at a popular café. But this café is an outrageous café where the hourly wage is decided by your victory or defeat in a game! Today is game day. Let's win and protect our salary!

To Protect the Part-time Job:

Two teams are made with the goal to brew more coffee (cards) than the other team. The cards with the [Coffee symbol] are [Coffee Cards]. There are

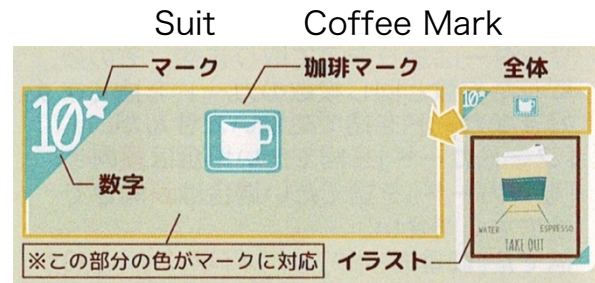

13 [Coffee Cards] in total. If you take 7 of these cards, you win!

Contents: 35 Cards

1 Tea, 13 Coffees, 21 Food

マーク	数字/色												
★ ほし	A エース	10	9	8	7	6	5	4	3	2			
◆ だいや	10	9	8		6	5	4	3	2				
● まる	10	9	8		6	5	4	3	2				
▼ さんかく	10	9	8		6	5	4	3	2				
マーク無し	T ティー												
	紅茶 カード	珈琲 カード											
												フード カード	

Card Details

*The card color also signifies the suit

Important Rules:

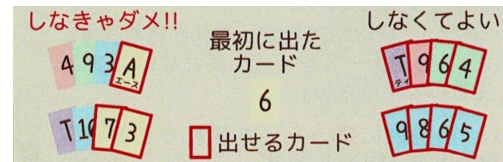

Rule 1: Trick

This game is made up of “mini-games” called tricks, played with 1 card from your hand. When everyone has played a card, the trick is over. The winner of the trick, takes all the cards in the trick. Repeat this until there are no more cards.

Rule 2: Must Follow

The first person to play to a trick can play any color card, but the 2nd card and any card after must follow the rules below:

-If you have a card with the same color as the first card, you must play it
This is what is called a must follow.

Ex: Playable cards marked in red, when yellow 6 is lead.

*If the first card played is a [T] card, the 2nd card played sets the trump suit.

Rule 3: Rules for the Trick

The strongest card is determined by rules 1-4 below. 1>2>3>4

1. [A] is the strongest, [T] is the 2nd strongest.

2. ONLY if all cards are the same color, [2] is the strongest number (otherwise the strongest number is the largest card).

3. The Trump suit is the strongest color, the way this is decided is described later.

4. Of the cards that follow the lead suit, the highest number wins.

Examples: Pink is Trump

例：切り札が[]だったら...	カードが出た順番
①③④ 成立	5 8 T 10 ⇒ T が勝ち ...①優先
②③④ 成立	6 9 2 8 ⇒ 2 が勝ち ...②優先
③と④ 成立	3 7 5 6 ⇒ 5 が勝ち ...③優先
④のみ 成立	6 10 9 7 ⇒ 7 が勝ち ...④適用

1: T was played so T wins

2: All the same color, so 2 wins

3: Trump was played, 5 is largest

4: 7 followed suit, 7 is largest

How to Play:

Setup

1. Decide a part-time leader (hereafter referred to as leader). This is the person who drank coffee most recently.

2. Shuffle the cards, and deal facedown according to the table below
Leave the surplus cards face down

Players Cards Dealt Surplus Cards

人数	配る枚数	余り枚数
2人	17枚ずつ	1枚
3人	11枚ずつ	2枚
4人	8枚ずつ	3枚
5人	7枚ずつ	0枚

3. The leader specifies the [Trump] suit amongst the yellow, red, blue, and green suits

4. (Only implemented at 4-5 player count) The leader specifies their partner by announcing a partner card. i.e. "My partner is the person who has the Red 10 card." The partner does not need to announce who they are.

The two teams will be referred to as [leader team] and [part-time team].

The leader and partner are on the [leader team]. Everyone else is on the [part-time team].

*In a 4 player game, the teams may not always be 2 and 2 as there are 3 surplus cards left. There is a possibility the teams will be 1 and 3.

5. (Only Implemented when playing at 2-4 players count) The leader takes the extra surplus cards, they then discard down to hand size of the others. You can discard any card. If the discard is a [Food Card], place it face down.

If it the discard is [Coffee Card], place it face up. This will count towards the [Coffee Cards] taken by the [part-time team]

Start the Game:

6. The leader plays the starting card.

Game Progress:

7. Everyone plays a card from their hand going clockwise. Making sure "Must Follow" is being followed.

8. The trick is over once the last person plays.

9. The winner takes the [Coffee Card]. Place it face up so that you can see how many were taken by each team. Place everything else face down.

10. Whoever won starts the next trick.

11. Repeat steps 7-10 until you run out of cards.

End of Game:

12. Count up the total of [Coffee Cards] won by each team, including any that were discarded in step 5.

Game Victory/Defeat:

If playing multiple games, it is advised to play so that everyone has a chance to be the leader an equal number of times. Overall victory will be dependent on how much your hourly wage is by the end. You start off at 0 Yen and ONLY add to it when you win a game.

[Leader Team]: [Coffee] x 200 ¥

[Part-Time Team]: [Coffee] x 100 ¥

After adding up the total, start the next game. The next leader is the player to the left of the current leader.
